## CARVED PANEL

### *Presidential Line*

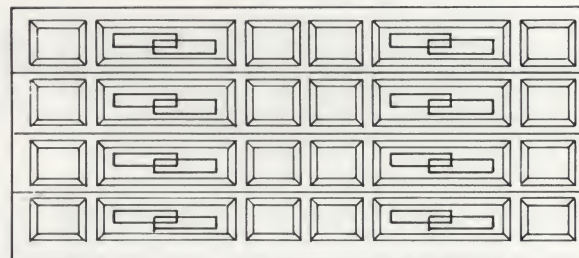

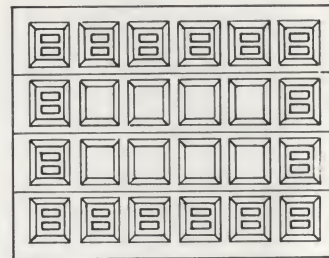

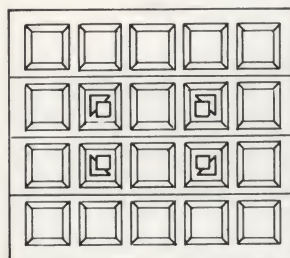

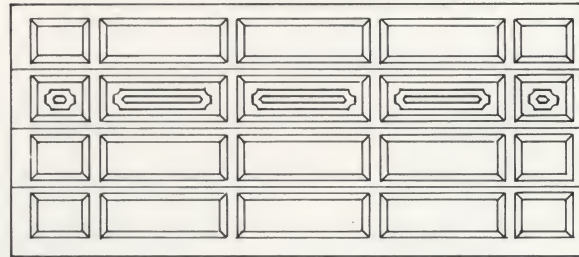

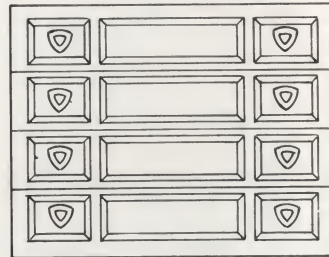

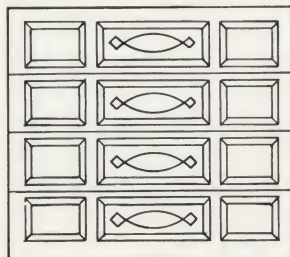

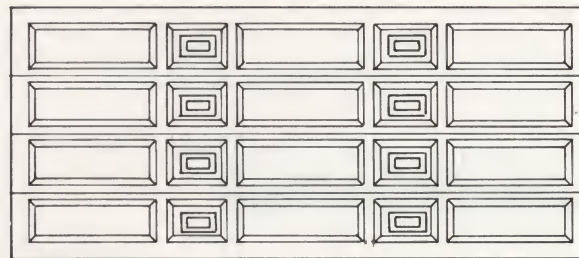

8' WIDE

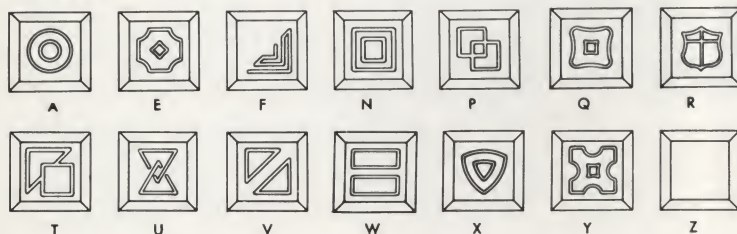

9' WIDE

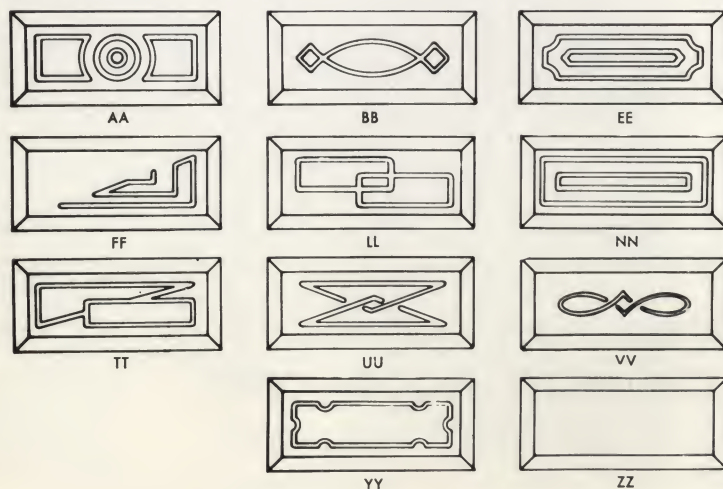

15' AND 16' WIDE

#### SQUARE

#### STREAMLINED

#### Carved Panel

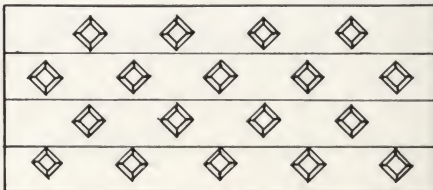

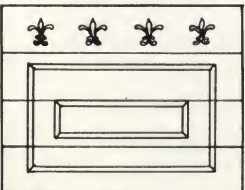

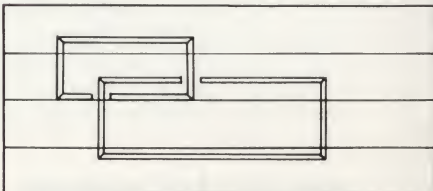

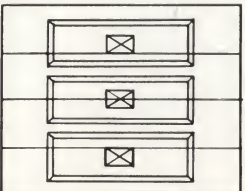

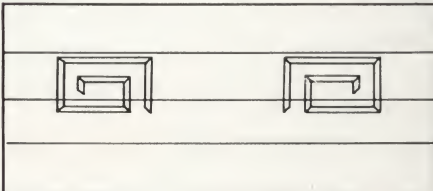

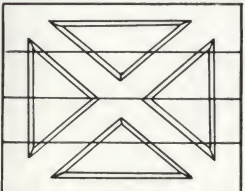

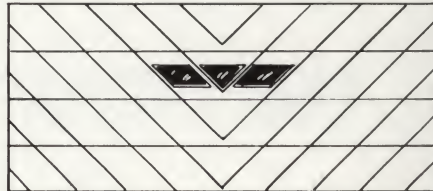

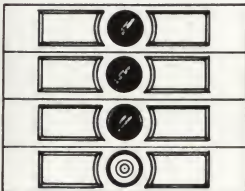

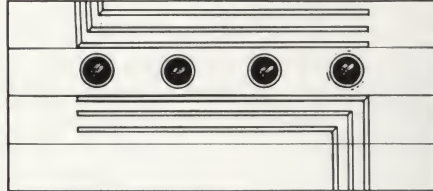

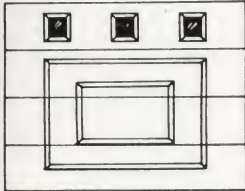

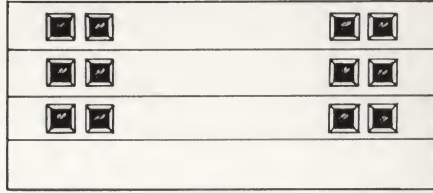

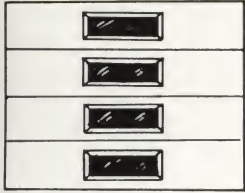

Raynor, the original Carved Panel Door, with its "Built-in" eye appeal and the many outstanding features of the Raynor line, make this a most desirable wood sectional overhead door.

Stiles and rails of 1 3/8" or 1 3/4" Douglas Fir, Sitka Spruce or equal. Panels consist of electronically bonded 3/4" thick White Pine or Redwood strips. Designs are routed in the panel. Stop moulding furnished. Model 70, T-8 or L-30 hardware applicable to this section construction.

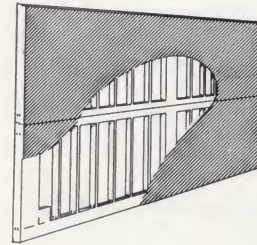

# RAYNOR FLUSH DOORS

## Flush Doors

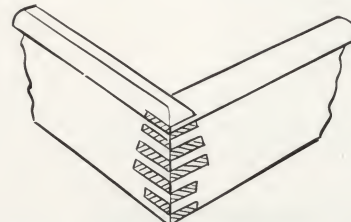

Ideally suited to harmonize with the subtle lines of modern architecture, the Raynor Flush Door's smart appearance and sturdy construction give home owners the ultimate in overhead door satisfaction.

Illustrations only suggest the infinite design adaptations possible with varied glass inserts and applied mouldings available. Can be factory applied or bought separately.

## Flush Door Construction

Sections are 1 3/4" thick, 1/4" exterior plywood or 3/16" Masonite bonded to both sides of a Douglas fir frame, using a hot plate press & waterproof glue. Hollow core frame consists of vertical spacers, 6" on center for plywood, or 3" on center for Masonite. Stop moulding and glass moulding furnished. All Raynor Masonite Flush sections carry the famous Masonite "life time guarantee."

## Raynor Glass Insert Frame

The interlocking finger joints guarantee against parting or opening of corners, shape of moulding assures adequate drainage, allowing no water to stand anywhere on frame, the massive appearance lends itself to the over-all beauty of any Raynor Garage Door.

## MASONITE FLUSH DOOR GUARANTEE

**LIFETIME GUARANTEE**—The panels of this door are a product of Masonite Corporation. The door manufacturer selected them to give you the best in quality, beauty and service. These panels are guaranteed not to split, splinter, delaminate, or crack due to any natural conditions of weathering or exposure. If any tempered presdwood fail in this way, notify Masonite Corporation giving conditions of failure and name of door manufacturer. After verification of failure Masonite Corporation will furnish a new door section or the entire door at its expense.

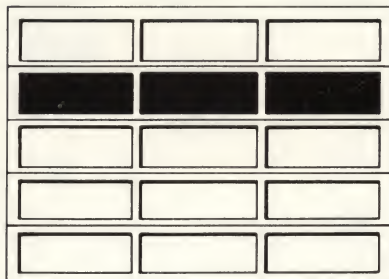

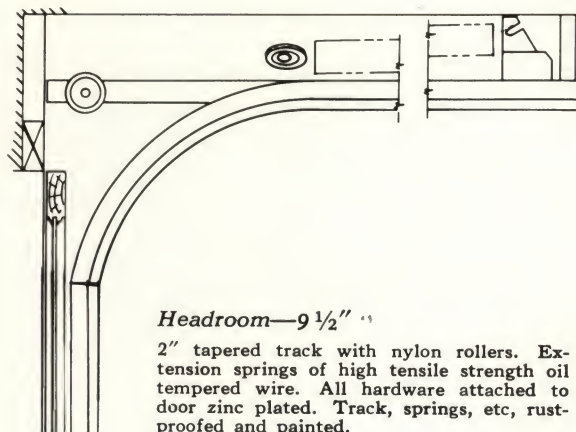

**RAYNOR-ETTE****Economy**

Capable of matching any architectural design, the Raynor-ette with its streamline design—precision construction and flawless performance—is truly an economy door unsurpassed by none.

Stiles & rails of 1½" Douglas fir, Sitka spruce or equal. Panels of ¼" exterior, 3 ply fir plywood. All joints blind mortised and tenoned, steel dowelled and waterproof glued. Doors sanded, ready for paint. Wood sections are of lighter construction than styles above.

**Standard Sizes**

8'0" x 6'6"  
 8'0" x 7'0"  
 9'0" x 6'6"  
 9'0" x 7'0"

Headroom—9 ½" "

2" tapered track with nylon rollers. Extension springs of high tensile strength oil tempered wire. All hardware attached to door zinc plated. Track, springs, etc, rust-proofed and painted.

# Doors of Distinction by **RAYNOR**

The subtlety with which a Raynor garage door blends with the architecture of your home—the confidence and pride you soon develop due to the effortless operation and complete weather protection, for which every Raynor Door (regardless of size) is so outstanding—are just a few of the many many features of supreme garage door quality that Raynor has developed to the point of perfection.

It is the attainment of this genuine Wood Sectional Overhead Garage Door perfection that enables us to say "*When it is a Raynor Garage Door, it is a Door of Distinction.*"
